Revenue

Revenue for the 3-month period ended 31 December 2016 ("3Q2017") increased by approximately RMB 912,000 or 2.4%, from RMB 37.4 million for the 3-month period ended 31 December 2015 ("3Q2016") to RMB 38.4 million in 3Q2017. The increase in revenue during 3Q2017 was mainly attributed to the increased sales of industrial fuse and initiating explosive devices and industrial detonators, which was partially offset by the lower sales of explosives devices.

Our products can be categorised mainly into (a) explosive devices such as boosters; (b) industrial fuse and initiating explosive devices such as detonating cords and non-electric tubes; (c) industrial detonators such as piston non-electric detonators; and (d) ammonium nitrate.

The breakdown and comparison of our revenue by the above product types and geographical segments between 3Q2017 and 3Q2016 and between 9-month period ended 31 December 2016 ("9M2017") and the 9-month period ended 31 December 2015 ("9M2016") are as follows:

8. **A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following :-**
- **any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and**
 - **any material factors that affected the cash flow, working capital, assets and liabilities of the group during the current financial period reported on. (Cont'd)**

Revenue (cont'd)

a) **Sales within PRC**

During 3Q2017, sales within PRC increased by approximately RMB 7.4 million or 33.2% from RMB 22.4 million in 3Q2016 to RMB 29.8 million in 3Q2017. For 9M2017, sales within PRC decreased by approximately RMB 17.2 million or 15.8% from RMB 108.9 million in 9M2016 to RMB 91.7 million in 9M2017.

The increase in sales within PRC during 3Q2017 was mainly attributed to our industrial fuse and initiating explosive devices and industrial detonators segments, which increased by approximately RMB 6.0 million or 64.7% and RMB 4.5 million or 51.6 %, respectively.

Our boosters product segment accounted for majority of the Group's sales and although the temporary production stoppage directive has been lifted due to an explosion at an unrelated boosters production plant in Shandong Province during the last corresponding period, the Group's sales in this product segment was impacted in 3Q2017 due to lower production capacity as the Group embarks on our earlier announced boosters automation upgrading program. As such, sales of boosters within PRC deteriorated by RMB 2.7 million or 71.5% and RMB 11.0 million or 79.3% during 3Q2017 and 9M2017, respectively.

There were no sales of ammonium nitrate during 3Q2017 due to the disposal of Hebei Yinguang Chemical Co., Ltd ("Hebei Yinguang") during 2Q2017.

b) **Sales through export distributors**

Sales through export distributors was approximately RMB 978,000 and RMB 1.1 million for 3Q2017 and 9M2017, respectively. There were no such sales in the last corresponding periods.

c) **Sales to Australia**

During 3Q2017 and 9M2017, sales to Australia decreased by approximately RMB 7.3 million or 49.1% and RMB 56.1 million or 81.0%, respectively. The lower sales was mainly due to the reduction in our boosters' production capacity due to the earlier announced boosters automation upgrading program.

d) **Sales to other countries**

There were no sales to other countries during 3Q2017. During 9M2017, sales to other countries decreased by approximately RMB 3.9 million or 83.8%. Our boosters product segment accounted for majority of the Group's sales to other countries, hence our revenue in this market segment was significantly affected due to the earlier announced boosters automation upgrading program.

The decline was attributed to the same reason that affected the Group's sales to Australia.

All domestic PRC sales contracts and export applications sought by export agents have been approved by the Ministry of Industry and Information Technology, Department of Work Safety ("MIIT").

Gross profit margin

During 3Q2017, the Group's gross profit margin increased to 16.6% from 12.1% mainly due to the disposal of Hebei Yinguang during 2Q2017 which had a significantly lower margin ammonium nitrate product. In addition, the Group was not subjected to the temporary stoppage directive of the production of our Yinguang Technology's products in 3Q2017 as compared to the previous corresponding period.

During 9M2017, the Group's gross profit margin decreased to 13.3% from 29.4%. The drop in gross profit margin during 9M2017 was mainly due to the temporary stoppage of boosters production during the first 2 months of 9M2017 and the impact of lower sales from our boosters product segment due to lower production capacity as the Group embarks on our earlier announced boosters automation upgrading program.

8. **A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following :-**
- **any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and**
 - **any material factors that affected the cash flow, working capital, assets and liabilities of the group during the current financial period reported on. (Cont'd)**

Interest income / (Finance costs)

For 3Q2017 and 9M2017, interest income decreased by approximately RMB 156,000 and RMB 292,000, respectively, mainly due to lower average bank deposits during the current period under review.

For 3Q2017 and 9M2017, finance costs decreased by approximately RMB 803,000 and RMB 1.6 million, respectively, mainly due to lower bank lending interest rate and lower bank loans for the Group after the disposal of Hebei Yinguang.

Other gains / (Other losses)

For 3Q2017, other gains relate to reversal of allowance for impairment on trade receivables of RMB 63,000, gain on disposal of RMB 240,000 and government grants of RMB 128,000. For 3Q2016, other gains relate to reversal of allowance for impairment on trade receivables of RMB 127,000 and government grants of RMB 137,000.

For 9M2017, other gains relate to reversal of allowance for impairment on trade receivables of RMB 452,000, net gain on disposal of subsidiary of approximately RMB 30.1 million and government grants of RMB 647,000. For 9M2016, other gains relate to reversal of allowance for impairment on trade receivables of RMB 153,000, foreign exchange adjustment gain of RMB 366,000 and government grants of RMB 654,000.

For 3Q2017, other losses relate to foreign exchange adjustment loss of RMB 286,000. For 9M2017, other losses relate to foreign exchange adjustment loss of RMB 486,000 and loss on disposal of property, plant and equipment of RMB 876,000.

For 3Q2016, other losses relate to allowance for impairment on trade receivables of RMB 7.0 million, foreign exchange adjustment loss of RMB 165,000 and loss on disposal of property, plant and equipment of approximately RMB 9,000. For 9M2016, other losses relate to allowance for impairment on trade receivables of RMB 7.0 million and loss on disposal of property, plant and equipment of approximately RMB 28,000.

Foreign exchange adjustment gain/(losses) arose mainly from foreign exchange rate fluctuation among Renminbi (RMB), United States Dollar (US\$) and Singapore Dollars (S\$). Government grants relate to a grant for certain plant and equipment which will be amortised over 3 years and other ad hoc government grants for various purposes including safety awareness.

For 9M2017, the net gain on disposal of subsidiary of RMB 30.1 million, after the waiver of amount due to Yinguang Technology, relates to the disposal of Hebei Yinguang that was approved by shareholders during the Extraordinary General Meeting held on 31 August 2016. For more information on the disposal of Hebei Yinguang, please refer to the Company's Circular dated 16 August 2016.

Allowance for impairment on trade receivables was based on the management's assessment on the Group's individual trade receivable as at the end of the period under review, in accordance to Singapore Financial Reporting Standards. The impairment was made on those individual long outstanding and slow-moving trade receivables during the assessment and was mainly attributed to the slowdown in China's economic growth and directly impacting the coal and iron-ore mining industries.

Gain/(Loss) on disposal of property, plant & equipment relates to the disposal of certain motor vehicles and equipment that were no longer in use and determined as part of the Group's cost-cutting measure.

Operating expenses

Distribution costs for 3Q2017 increased by approximately RMB 1.3 million or 29.8% mainly due to increase in revenue and in particular increase in sales of initiating fuse and initiating devices which have a higher related distribution costs. Distribution costs for 9M2017 decrease by 21.9% which is in line with the decrease in revenue.

Administrative expenses for 3Q2017 and 9M2017 declined by approximately RMB 1.1 million or 10.8% and RMB 2.6 million or 8.7% mainly due the lack of fixed administrative expenses subsequent to the disposal of Hebei Yinguang during 2Q2017.

During 3Q2017, amortisation expenses decreased by approximately RMB 228,000 or 25.6% mainly due to the lack of amortisation expenses of Hebei Yinguang subsequent to the disposal of Hebei Yinguang during 2Q2017 and an adjustment of amortisation expenses during 3Q2016, partially offset by the increase in amortisation expenses due to increase in land use rights.

During 3Q2017 and 9M2017, depreciation expenses decreased by RMB 0.9 million or 16.9% and RMB 1.2 million or 8.4% mainly to the lack of depreciation expenses of Hebei Yinguang subsequent to the disposal of Hebei Yinguang during 2Q2017.

Income tax income / (expenses)

The income tax expenses for 3Q2017 and 9M2017 were mainly related to the adjustment of deferred tax assets and the provision of withholding tax for undistributed profits of the subsidiary to the Group.

Statement of Financial Position

Property, plant and equipment decreased by approximately RMB 12.0 million, mainly due to the depreciation charged for the current period under review of approximately RMB 13.5 million, the disposal of certain property, plant and equipment of approximately RMB 7.2 million and the disposal of Hebei Yinguang during the current financial period reported on. The decrease was partially offset by the acquisition of property, plant and equipment of approximately RMB 9.6 million.

Other assets, non-current relate to the Group's land use rights, which decreased by approximately RMB 12.9 million mainly due to the disposal of Hebei Yinguang and the amortisation charges of approximately RMB 2.1 million recognized during the current period under review.

Deferred tax assets relate mainly to the deferred tax differences for the allowance for impairment on trade and other receivables, provision for safety expenses and deferred tax on tax losses incurred.

Inventories, trade and other receivables, other assets and cash and cash equivalents, represented approximately 20.0%, 21.8%, 11.7% and 46.5% respectively of our total current assets as at 31 December 2016.

Inventories decreased by approximately RMB 1.5 million or 3.5% to RMB 40.4 million as at 31 December 2016, as compared to RMB 41.8 million as at 31 March 2016.

During the current period under review, trade and other receivables decreased by approximately RMB 16.4 million or 27.1% to RMB 44.0 million as at 31 December 2016, mainly due to the disposal of Hebei Yinguang and an allowance for impairment on trade receivables made of approximately RMB 3.6 million during 9M2017.

8. **A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following :-**
- **any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and**
 - **any material factors that affected the cash flow, working capital, assets and liabilities of the group during the current financial period reported on. (Cont'd)**

Statement of Financial Position (Cont'd)

Other assets, current comprising the Group's prepayments, increased by approximately RMB 1.9 million or 9.0% to RMB 23.6 million as at 31 December 2016, despite the decrease from the disposal of Hebei Yinguang. This was mainly due to the increase in prepayment for raw materials.

As at 31 December 2016, our current liabilities comprised of trade and other payables of approximately RMB 67.4 million, other current financial liabilities of approximately RMB 59.7 million and other liabilities of RMB 2.6 million. Non-current liabilities comprised of deferred tax liabilities of RMB 1.9 million.

Trade and other payables decreased by approximately RMB 34.5 million mainly due to the disposal of Hebei Yinguang.

As at 31 December 2016, other current financial liabilities of RMB 59.7 million relates to secured bank loans of Yinguang Technology. The decrease was mainly due to the disposal of Hebei Yinguang.

Other liabilities of RMB 2.6 million relate to the Group's provision for safety expenses, advances from customers and a deferred government grant. The decrease was mainly due to the disposal of Hebei Yinguang.

Deferred tax liabilities of RMB 1.9 million relates to the deferred tax liabilities for the withholding tax on dividend payable by our subsidiary in China. The decrease was due to the disposal of Hebei Yinguang.

Cash flow

For 3Q2017, the Group has net cash used in operating activities of approximately RMB 11.3 million, net cash from investing activities of approximately RMB 517,000 and net cash from financing activities of approximately RMB 20.7 million.

For 9M2017, the Group has net cash used in operating activities of approximately RMB 34.1 million, net cash from investing activities of RMB 26.6 million and net cash from financing activities of approximately RMB 10.3 million.

The net cash from operating activities for 3Q2017 and 9M2017 was mainly due to payment of trade and other payables, in particular the RMB 30.0 million bills payable paid in 1Q2017.

The net cash from investing activities of approximately RMB 26.6 million during 9M2017 was mainly due decrease in cash restricted in use of RMB 30.0 million and the disposal of property, plant and equipment of approximately RMB 6.3 million, partially offset by the acquisition of property, plant and equipment of approximately RMB 9.6 million.

The net cash from financing activities during 3Q2017 and 9M2017 was mainly due to the net proceeds from borrowings, partially offset by the payment of interest.

9. **Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

The current third quarter results for the 3-months period ended 31 December 2016 are in line with the Company's commentary as disclosed under paragraph 10 of the second quarter results announcement for the financial period ended 30 September 2016.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

China market updates

China continues to experience a slowdown in its economic growth and the broad-based weakness in global commodity prices continues to impact mining activities in China. In addition, as pollution and environmental issues remain key issues in China, the Chinese authorities have increased their scrutiny and regulations on industrial activities (such as refinery and power plant facilities) that are major causes of such issues. As a result, these factors have led to reduced mining activities in China and will continue to affect our local sales in China as most of our commercial explosives products are used in mining related activities.

The management will continue to monitor the situation and update Shareholders of any other material impact to the Group accordingly.

Update on our boosters production facilities

Announcements issued by the Company on 30 October 2015 and 3 December 2015 highlighted an unrelated explosion incident at a booster production plant in Shandong Province, Linyi City, Pingyi County. As a precautionary measure, the authorities required all commercial explosives manufacturers in Shandong Province to temporarily cease all production of commercial explosive products for safety inspections and clearance by the relevant authorities. Subsequently, on 30 November 2015, the Group received a notification from the relevant authorities to resume production of our commercial explosives products, except for boosters production as this product category will require additional safety inspection and clearance by the relevant authorities before the resumption of production.

On 25 May 2016, the Company received the notification from the relevant authorities for the resumption of our automated boosters production and Yinguang Technology's automated production line for boosters had resumed production on 26 May 2016. Yinguang Technology's second automated production line for boosters is in the final stage of inspection.

However, adhering to new safety directives, Yinguang Technology's two manual production lines of boosters will cease production and the Group will likely be converting these two manual production lines into automated production sometime in the future, which would lead to an improvement in product quality and further enhance the safety standards of the boosters' production facilities. This initiative is aligned with the Group's earlier announced plans to step up our boosters automation upgrading program. As a result, the Group's production capacity of boosters will be reduced pending the conversion and completion of the automated production lines.

Thus, we expect our revenue and profitability to continue to be impacted during this transition period.
